 October 13 - 28, 2010**

**Election Day  
 November 2, 2010**

**ABOUT THE ENDORSEMENT LIST:**

All positions listed in this guide result from information in candidate surveys and interviews conducted by the Tennessee Right to Life Political Action Committee (TRL PAC). In the case of incumbents, we have closely reviewed their voting records on pro-life issues as well.

The TRL PAC endorses candidates without regard for their political party affiliation, thus endorsing pro-life Democrats, Independents, and Republicans who have demonstrated their commitment to defending the basic Right to Life.

We have reserved our endorsement for either incumbent legislators who have been steadfast in their pro-life position including opposition to abortion, assisted suicide and euthanasia, or those candidates who we are absolutely convinced will not only vote pro-life, but also use their position to be a leader on our issues.

TRL commits to continuing and expanding our efforts of educating community leaders, including elected officials, to the importance of protecting all human life. We further encourage you to discuss Right to Life issues personally with candidates so that they will become better informed and realize that these issues are of paramount importance to a significant portion of the electorate. In so doing, we will hasten the day when every life is valued and once again afforded protection under the laws of our state.
